Marathon

We are very busy putting around trying to get ready for the boat to be pulled Monday. We're moving things below deck, the sofas, rug, etc must be moved. The Hatal where the generator will be lowered is in the middle of the salon.

We also had to go out to get Ed Bush's girl Lisa straightened out "Tax wise".

Note: Today I went back on Advil. I don't know if it is the front that is moving through or not, but the nerve docem my leg is bothering me, and I'm not even quite finished the short course of Cortisone.

Tonight I'll make Papfried Cat Fish, Cole Slaw and pickled beets for dinner.

* The wind came up yesterday afternoon 20-25k out of the East, and it's still pressing 25k this afternoon.
