To celebrate tonight we are going with Laurel and Dave, and Maddy & Ron to the pig roast at Casara Bay.

Had a great time in the evening although the day left something to be desired.

Marathon

Mort discovered we can't transmit on our new radio until we have "something snugged".

We also had a yolt about ~~our~~ ^{Mort's} insurance policy.

Nov. 13, Cont'

The company is in receivership. Might be a large loss.

The bugs - no see ums, etc. - are biting today.

We plan to join the gang at Dockside.

We did " " " " " Pizza was ordered. Mort was not in a very good mood for music & dancing. We left very early. His allergies are very bad. When this happens he becomes three of the seven dwarves; Sneezy, Coughie and Grumpy. But I love him!

Marathon

It is another cloudy threatening day. This is the net on the down side of a low/high line. Tomorrow should be better if it moves swiftly. The weather has been stinks this ~~spring~~^{fall} as compared to others we have had here.

We had planned to go to the Flea Market on Big Pine today, but we will probably do this next week. It is not a good place to be in wet weather. Very muddy.

We got the Ham Net on our SSB this A.M. First time pins installed. My eye feels much better the last day or two. It is beginning to look a little better too.

Maybe I'll food shop today and bring in some shrimp or lobster for dinner.

I'll also try to reach all of the Children.

Saturday 11-14-92 Cont:

Had oysters & French Onion soup for dinner. Played cards.
A good day all in all.

Note: Started Mort on a regimen of Cortisone for his allergies. Poor guy hasn't breathed properly (mask) in 3 weeks. really suffering. Began Deltasone 10 mg. 5 per day reducing by 1 @ 3 days
i.e. - 5-5-5-4-4-4-3-3-3-2-2-2-1-1-1/2-1/2-1/2. Would have checked with Max, but he is in Israel [his first 2 week vacation in years]

Marathon

Pretty day. Cold Front coming through. Winds 20-25 K out of the North / North East. Temperature 70° with wind chill means a blue jeans / long sleeve day.

The fella from Tuid Stabalzeis is coming today at noon.

Maddy & Ron stopped by in A.M. to go over plans for Tuesday.

Barry & Pam from Tuid came. The quote was large. We played cards in afternoon. I won for a change. Then we went to the Quay for dinner.

A fine day especially since Mort is doing better allergy wise.

Monday November 16, 1992

Marathon

It is cold and windy - Below 70°. Mort complained that we don't have enough \$ on the record. He, however, rejected any offer this A.M. He is going to the Home!

Note: Mort got super aggravated about the ICOM people. No response re: SSB feature

Marathon *

Today is a great day to get off of the boat. Maddy & Ron and Mort & I are going for Flea shots today and to play after.

At 7:45 A.M. we met at the Board of Health only to find that it is closed to us once again. No nurse to give the shots. Then we went to the Stuffed Pig for breakfast. Then we went to do some varied errands.

Then we spent 2 hours with Laurel, the other staff at the DRC, and with the dolphins Glouais.

We took Laurel to lunch at Mike's Hideaway and then went to Key Largo to see some craft shops and some buried treasure. Then we dropped Ron & Maddy off at the dingy dock. It was by this time 3:30.

We rested after, had a cocktail and then Steak & Salad for dinner.

All in all a very satisfying day!

Marathon

Mort began what was to be a one day job. He wanted to separate the Merowind units from my other cooking ~~units~~ units, thereby giving me greater flexibility while cooking.
